20TH ANNIVERSARY

In our last newsletter, we featured an article to upgrade to Integrasoft. With several installs now under our belt, I can honestly say that all TechGap users should take the time to look at Integrasoft and what it has to offer.

We will be changing our website content to reflect the new Integrasoft software and post marketing, enhanced features, and product release notes in pdf format for your downloading convenience. We will also post past newsletters as well.

New Features in Integrasoft Order Entry

A). All Inquiries have been enhanced to include more info on the first listing screen, plus additional info on the order header, like shipto number and operator.

B). Once at the line items in inquiry, you can now scroll forward and backwards on an order.

C). Each order now has release numbers for backorders, so all activity has the same main order number.

D). New Function to automatically fill open orders per inventory available.

Integrasoft featured Inventory IC Deals

Integrasoft now has the ability to setup promotions, where if the customer buys one thing, they get an additional item or items defined by you in a given quantity, price and date range.

***Bottom Line - Works great
for specials like buy 1 get 1 free.***

Laser Checks for TechGap or Integrasoft

We now have the ability to print laser checks for Accounts Payable and payroll for both TechGap and Integrasoft. We can print stub check stub or stub stub check.

Benefits: A) easier to load check stock, B) crisp laser quality, C) it's quiet and most importantly, D) it's less expensive.

Requirements: A) cobol programming check for Accts Payable and / or Payroll. B) Laser printer capable of printing 66 lines per page like the HP4200N and C) Laser check stock from your printer supply company. It's that easy and looks great...

Contact Charles Bradshaw if you are interested in laser checks.

Other Important Announcements

Printing Labels:

Over the years we have developed many applications to produce labels for just about everything. We have worked with a variety of bar code printers, and label software. I thought it would be useful to share some of this information .

Whether you need tags, adhesive labels for individual items or boxes, product data, bar codes, shipping data, and or customer data; MicroMeans has a solution.

Did you know that over 70% of the labels being produced today are manually filled in?

Did you know that most label data can be pulled or pushed directly from TechGap or Integrasoft without keying the data manually?

Reminders:

Year End approaching, make sure you have your necessary forms, enough backup tapes, removing history and rebuilding you data indexes, and documenting your procedure manuals.

Keep your antivirus software up to date.

Check your backups and keep at least one set offsite.

Check out our new website.

Alan has safely returned to us from his mountain camping trip. I guess bears don't eat brain food.

Happy Holidays to ALL ...

Our mission...To provide quality software and hardware solutions that help our clients gain a competitive edge. Backed by the best service and support in the industry, with the attitude and experience to make it happen.

Upcoming Holiday Schedule

Thanksgiving November 27th and 28th
Christmas December 25h and 26th
New Years January 1st 2003

MicroMeans, Inc.
5512 Mitchelldale
Houston, TX 77092
(713)688-7888

Year End is just around the corner, please make sure you have already ordered your W2 forms and have enough backup tapes to perform year end.

MicroMeans proudly celebrates our 20th anniversary. Can you believe it. I can, I became a grandpa on July 3rd.

Lezlie Emma Johnson
