

iWEB New Release Information

Version 1.15
March 12, 2010

Presented by:
Tech Systems, Inc.

Follow the *Installation Instructions* to install this version of ***iWEB***. Perform the *Special Software Instructions* for ALL Release Notes between the version you are running and the version you are installing.

If you have modified ***iWEB*** programs and Tech Systems enhances or fixes the standard program, your modified (or custom) program must be updated to take advantage of the enhancements and fixes. Please contact our Custom Programming department for a quotation.

Installation & Special Software Instructions

Installation Instructions

Definition

The following instructions must be performed in the order given. If you have any questions, please contact your support consultant.

1. Make sure you have a verified backup prior to installing the new iWEB update and remove all media (i.e. tapes & diskettes from your system.
2. Ensure the Maximum MF Directory Server Object Count is set to 4096. From the MF Enterprise Server Administration, Select Options under Configure and then select the General Tab.
3. Ensure all operators are out of the iWEB & iPOS software and insert the installation CD.
4. From the console login as root:

Login: root (Press ENTER)

Password: #### (Enter your password and press ENTER)

cd / (Press ENTER)

5. If you received a CD that contains the **iWEB** software, perform the following command depending on the Operating System you are on:

*Note: You may receive an error /mnt directory already exists when performing the first step in either Operating System section. That is fine, ignore the error message and continue.

For LINUX Operating System:

mkdir /mnt (Press ENTER)

mount /dev/cdrom /mnt (Press ENTER)

*Note: You may receive the message–Mount:block device /dev/cdrom is write-protected, mounting read only
This is a normal warning message and you can go ahead and continue.

cp /mnt/isweb.tar.gz /isweb (Press ENTER)

umount /mnt (Press ENTER)

For UNIXWARE Operating System:

mkdir /mnt (Press ENTER)

mount -F cdfs -r /dev/cdrom/cdrom1 /mnt (Press ENTER)

cp /mnt/isweb.tar.gz /isweb (Press ENTER)

umount /mnt (Press ENTER)

6. cd /isweb
7. Perform the command below depending on the Operating System you are on:

For LINUX Operating System:

tar zxvf isweb.tar.gz

For the UNIXWARE Operating System:

guntar zxvf isweb.tar.gz

8. sh install/iswebinstall.sh (press ENTER)
